EXPERIENCE

Graphic Era University | Developer & Designer

July 2022 — Present

- Launched production-ready websites for Graphic Era Group, leveraging diverse technologies, including the flagship website <https://geu.ac.in>, resulting in a more visually appealing and engaging website that garnered a **25% increase in traffic and improved user flow**.
- Development efforts on <https://geimshospital.com>, enabled patients to conveniently schedule appointments online, resulting in an average of **80+ appointments booked via the website**. This significantly improved the hospital's operational efficiency and patient satisfaction.
- Contributed to the development of a centralized online hub for new students entering the college, including the websites <https://induction.geu.one> and <https://buzz.geu.ac.in>, streamlining the onboarding process and enabling **better student queries resolution**.

Google Developers | Google Developers Student Clubs Lead

August 2020 — August 2021

- Expanded Student Clubs **reach by over 1400%**, cultivating a thriving online community of **1000 students across 4 platforms**, from an mere initial 70 members.
- Executed several successful events and workshops across diverse domains (**Web, Cloud, Mobile Development, etc.**) engaging and educating audiences of over **300+ attendees per event**, resulting in increased student awareness.
- Lead an high-performing internal team of 10+ members to execute successful events from end-to-end and building products for society.

PROJECTS

Salyd | [Mobile app \(iOS & Android\) on GitHub](#) , [Website](#)

Created a mobile app (iOS & Android) for restaurants that allows customers to view menus and create rooms of table on their devices, as well as providing **real-time order and payment status updates** for restaurants, enabling contactless dining.

React Builder | [Website](#) , [GitHub](#)

A web app that speeds up the development of React apps by providing customized components, pages, routing, with pre-configured dependencies. It allows developers to **save 150+ lines of code** on average per project, reducing rewrites and shortening project timelines.

Health Bridge | [Website](#) , [GitHub](#)

Developed a platform connecting patients with doctors, allowing patients to book appointments, receive online consultations, and **receive prescriptions**.

TECHNICAL SKILLS

TypeScript | JavaScript | Next.js(ISR, SSR, SSG)
React.js(Hooks, Context) | Node.js | HTML
React Native | Tailwind CSS | CSS | Sass

Docker | Git & GitHub | Prisma | Express.js
Mongoose | ESLint | Firebase | Vercel

SQL — MySQL | PostgreSQL | SQLite
NoSQL — MongoDB | Firestore

AWS | GCP | Microsoft Azure

Cloud Computing | C++/C | REST APIs | CI/CD
Linux Commands | Microservices | Frontend
Backend | Full Stack | DevOps

ACHIEVEMENTS

TEDxGraphicEraUniversity 2022

Created TEDx website with online registration & ticketing and QR code verification for 400+ attendees. Designed creatives & goodies as part of branding team.

Microsoft Imagine Cup India 2021 Grand Finalist

Designed a student app for behavior and academic assessment, enhancing productivity and performance. Ranked **top 7** out of **353 teams** and **10,000+ entries** in India finals.

Smart India Hackathon 2020 India Finalist

Developed a localized auction app for farmers, increasing their profitability. Selected as a finalist in India's biggest hackathon **with 200,000+ participants**.

EDUCATION & SOFT SKILLS

Under Graduation in Computer Science

2019 — 2023 | Graphic Era University

- Current CGPA - 9.61 / 10
- Led teams to success (leadership) through effective event planning (storytelling, communication), using innovative and creative materials (creativity, innovation) for exponential growth (growth mindset).
